

Scan Filter 

Table of Contents

Welcome to Scan Filter

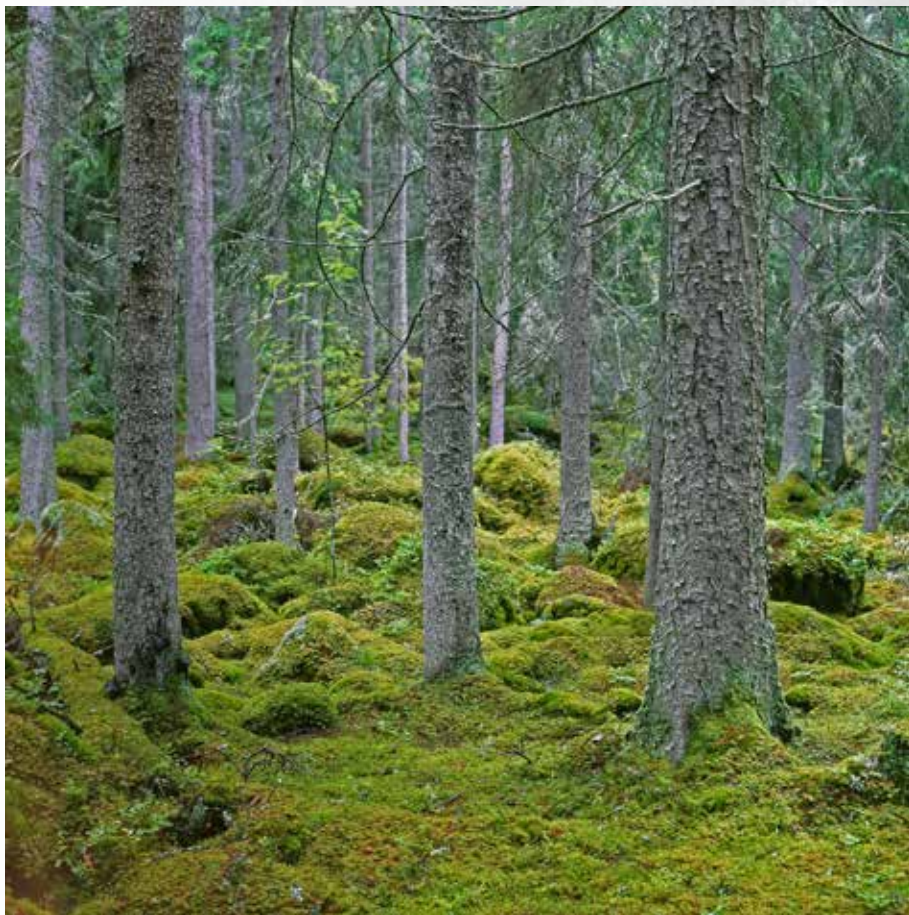

Scan Filter is a family owned business with proud traditions. After more than 30 years as a quality manufacturer of coffee filters, our history includes going from a successful family business to being part of the German Melitta Group. We're once again a family business, and in the last couple of years we have expanded our manufacturing with baking cups.

Our success comes from incorporating innovations while constantly striving to renew and improve both our production as well as the products themselves.

We were the first company in Europe to introduce unbleached coffee filters. Ever since, our goal has been to bring innovation to the area of environmental sustainability. As the need for environmentally-friendly products with a customized profile is increasing, we have many new and innovative products in the pipeline to meet it. Thanks to extended cooperation with industrial bakeries, our new generation of baking cups is perfectly adapted to the rigorous demands of modern food industry for quality and hygiene.

Our motto is that no order is too small or too big.

Environmental policy

Scan Filter's objective is to continuously work to diminish impact on the environment.

We do this by:

- following laws and other binding requirements.
- implementing constant improvements and preventing pollution.
- training and engaging all employees in our environmental work.
- engaging suppliers and customers in our environmental work and following up to ensure our suppliers follow laws and other binding requirements.
- working to decrease the use of energy on each production unit and using renewable wind- and water-powered electricity in our plants.
- recycling all production waste and ensuring all other waste is separated at source.

My Hedenskog
CEO, Scan Filter

We take responsibility for the environment

Scan Filter has the ambition to always work in an environmentally friendly way and as far as possible use environmentally friendly raw material.

Concern for the environment permeates all our activity. We are particularly proud of receiving the Nordic Swan label for our coffee filters, which shows that they fulfil the high environmental requirements.

All our work is characterized by the biological cycle – all the way from the little plant in the forest to the paper cup in which the cinnamon bun is served at the coffee shop. Our products are manufactured of raw material based on pulp from Swedish forests which are maintained and renewed with responsibility to ensure sustainable forestry. The Swedish raw material is not only part of a sustainable cycle, it is also 100 per cent renewable, recyclable and biodegradable. Of course we also use renewable wind- and water powered electricity in our plants.

In accordance with Regulation (EC) No. 1935/2005 of the European Parliament, all inner and outer packages are tagged with a batch number. This ensures full traceability all the way from the production of our suppliers to our customers and to the shops.

All paper used in our production is approved and certified according to the demands of ISEGA. We do not add any chemicals, solvents or other foreign substances during manufacturing, other than heat. All our suppliers have documented that they adhere to the REACH regulations.

We are of course ISO 14001:2015 and ISO 9001:2015 certified!

Quality and flexibility in our manufacturing

Scan Filter AB is a family enterprise run by the second generation. We have 20 dedicated employees eager to tackle new challenges and deliver the best products possible. Due to the fact that we ourselves manufacture and stock our products we have full control throughout the whole process. This makes it easier for us to make good environmental choices while ensuring an efficient production. This also means high quality, flexibility and quick deliveries. These are the corner stones of our organisation which automatically provide our customers with the most economical solutions!

All our raw material and all our products are tagged with a batch-code for secure tracing through the manufacturing chain.

We are of course ISO 9001:2015 and ISO 14001:2015 certified!

Wide Selection, Many Solutions!

Market leader on coffee filters

Today we're market leaders in coffee filters in Sweden and we have filters for all coffee machines on the market. In our range you find basket filters, cone filters and urn filters as well as filter rolls, flat filters and pyramid filters.

All our filters carry the Nordic Swan label which means that they - other than fulfilling the highly set environmental requirements- also fulfil the demands on high quality and functionality. The filters can be delivered in both white (TCF) and unbleached quality.

All our products can be marked with a customized print both on the inner packaging and outer carton.

Wide market selection of baking cups

We manufacture a wide range of baking cups in different sizes in specialty paper for retail, wholesale and for the baking industry. We also carry aluminium baking cups in different sizes.

We can print with as many as ten colours and we offer a customized range of different sizes and prints according to our customer's requirements.

All our products can be delivered to the retail industry with customized print on both the cups and on the packaging or they can be delivered in bulk either neutral or with customized print for the wholesale and the baking industry.

We're very flexible and committed when it comes to customizing a solution according to our customers' expectations. Size, colour, print and paper thickness – you decide!

Doilies

Scan Filter provides doilies of high quality manufactured on Pergamin. We have a wide range of standard doilies but we can also offer customized sizes in up to four colours.

Shape, colour, size and beautiful patterns are created according to our customers' requirements.

Hamburger-, hotdog- and wrap paper

We also manufacture hamburger-, hotdog- and wrap paper in customized sizes and up till four colours. These products are also created according to our customers' requirements.

Coffee filters

We produce and sell coffee filters to all coffee makers on the market, both to wholesale and the HoReCa industry. All our filters carry the Nordic Swan label which means that they - other than fulfilling the highly set environmental requirements- also fulfil the demands for high quality and functionality.

We offer paper quality from 35 g/m² to 56 g/m² unbleached or white (TCF) paper.

Every inner packaging can be labelled according to our customer’s requirements. Every outer carton can be marked with a customized label with information such as number of filters, article number, Bar-code, logo etc. alternatively a customized outer carton.

Our standard range of filters with neutral labelling is ready for immediate delivery.

Basket filters

We manufacture 90/250 mm and 110/250 mm catering filters for all coffee machines occurring on the market. The size of these filters is specified by the measurements of the outer diameter of the filter and the diameter of the bottom surface. Please note that there is a difference re. how you measure the size of basket filters compared to urn filters.
Paper quality 35 g/m², unbleached or white TCF (Total Chlorine Free).

| Article number | Size mm | Name | Qty./carton |
|----------------|---------|---------------------------|-------------|
| 190001 | 90/250 | Basket filters white | 4x250 pcs. |
| 190002 | 90/250 | Basket filters unbleached | 4x250 pcs. |
| 110001 | 110/250 | Basket filters white | 4x250 pcs. |
| 110002 | 110/250 | Basket filters unbleached | 4x250 pcs. |

Urn filters

We manufacture urn filters for all coffee machines occurring on the market. The size of these filters is specified by the measurements of the outer diameter of the filter and the diameter of the bottom surface. Please note that there is a difference re. how you measure the size of basket filters compared to urn filters.
Paper quality 45 g/m², white TCF (Totally Chlorine Free).

| Article number | Size mm | Name | Qty./carton |

| 220001 | 220 | Pyramid filters | 2x100 pcs. |

Products with customized print/branding

Successful companies use design to give prominence to their brand in different contexts. In order to be competitive a company must create its own identity and make sure it will be seen. More and more companies realize the importance of colour, shape and images when communicating with their customers.

Our products with customized print offer our customers yet another means of branding their company. Using a well-planned design with your own message on various paper products is a good way of becoming visible. We print on baking cups, muffin cases, doilies, hamburger paper and other paper products.

If you are in the baking industry you must of course make use of the baking cups to brand your company! It is hard to find a more favourable context to be seen in than cakes. Everyone must turn positively inclined by tasting a lovely cinnamon bun or a delicious muffin!

What is more – a pretty design will call attention to your cakes even more when they are presented for sale at the bakery. A pretty doily under a cake gives a professional impression. Muffins, buns and other cakes will present quite a different look when served in colourful cases.

The use of baking cups and doilies is hygienic and practical – for both vendor and buyer. The greaseproof paper cups protect the cakes and keep the dishes clean. They also keep the humidity of buns and muffins longer. Our doilies are also well suited under the pastry on display in the shop.

We are happy to help you with suggestions for colours, patterns, shapes and text styles. You can either choose one of our ready designs to match your company, or design your own unique product with a text of your own. Why not create a whole series of different cups to match each other?

“Mormors bageri”, a swedish company, have created their own customized baking cups with a brand print. Their different cups follow a consistent idea, indicating that they belong together.

It is cheaper than expected to get a customized cup in a colour of your choice and with your own logotype. Contact us to find out more!

Retail, customized print

All our products are offered in consumer packages and with customized print on both baking cups and package. We are very flexible and dedicated when it comes to customizing a solution according to specific demands of our customers. Shape, size, colour, design, thickness and text – it’s up to you!

Baking cups

In our modern facilities we manufacture a wide market-oriented selection of baking cups for retail, catering services and industrial bakeries. Our baking cups are approved for usage with food and they fulfil all functional requirements for sliding quality, shape, durability and colour resistance to grease and heat. They also meet with the rigorous requirements of the baking industry for hygiene, quality and traceability. Our motto is that no order is too small or too big.

Our baking cups are manufactured in Sweden of Swedish raw material (approved to be in direct contact with foodstuff and free of Fluor chemicals) of bleached or unbleached greaseproof paper in our standard weights 40-70 g/m2. On request we can manufacture in other paper qualities as well.

Scan Filter has its own print shop printing up to ten colours and we can offer our customers both a standard assortment of printed cups and cups with customized print.
